# CSCM 3000: Supply Chain Management

This is a comprehensive professional development and exam preparation course. It consists of three modules that reflect the entire APICS CSCP Exam Content Manual (ECM) and provides a broad view of global end-to-end supply chain management. Each module further empowers students with an understanding of best practices, techniques and technologies necessary to maximize their organization's efficiency and impact the bottom line.

Hard copy course materials, access code to learning system, and slide deck provided.
