

BSA 120: Mastering Business Analysis

This course explores advanced strategies for gathering, documenting and reviewing requirements for more effective business analysis and implementation. Supporting the latest BABOK® edition, this course includes added test-prep questions to help interested students prepare for the CBAP® or the CCBA® certification. Students explore advanced topics in quality management, testing, verification and validation. Other topics covered include advanced techniques for creative problem solving and advanced quality management to ensure project success.

Course to be sunset by May 30, 2025. The sunset of a course or program does not have any impact on the validity of the earned credential. Students who are not able to complete a program prior to the sunset date will be able to do so with approved replacement courses in accordance with other academic policies.
