

SSG 150: Lean Six Sigma Master Black Belt

This course contains the tools and techniques necessary for efficiently developing Lean Six Sigma within a business. Various experiment design methods and strategies are disassembled and examined. The relationship between the industry, customer and supplier is reviewed and analyzed.

Course to be sunset by May 30, 2025. The sunset of a course or program does not have any impact on the validity of the earned credential. Students who are not able to complete a program prior to the sunset date will be able to do so with approved replacement courses in accordance with other academic policies.
